years

Symposium
"Source areas and stepping stones in Aquatic Warbler conservation"

Final Agenda

Day 1 – March 16th 2021

Link: <https://zoom.us/j/91257788671?pwd=VXFOeFYyTXdhRkl2ZVBDM3RwSHNXUT09>

09:30 – 10:00 – Registration and welcome session

Session I - Aquatic Warbler population in Europe and Poland

10:00 – 10:30 - Aquatic Warbler breeding populations in European range countries - current state and dynamics (Martin Flade)

10:30 – 11:00 - 30 years of Aquatic Warbler conservation in Poland. Involvement of OTOP in protection and conservation of the species (Jarosław Krogulec)

11:00 – 11:30 - Aquatic Warbler in Poland. State of the population. Source areas and small breeding sites. (Krzysztof Stasiak)

11:30 – 12:00 Coffee break

Session II - Aquatic Warbler breeding populations in Europe

12:00 – 12:30 - The state of the Aquatic Warbler population in Lithuania and effects of translocation project. (Zymantas Morkvenas)

12:30 – 13:00 - Main breeding populations of Aquatic Warblers in Belarus (Alexandr Kozulin)

13:00 – 13:30 - Metapopulation of Aquatic Warbler in Belarus with particular emphasis on small sites (Alexandre Vintchevski and Uladzimir Malashevich)

13:30 – 14:00 - The state of the Aquatic Warbler population in Ukraine (Anatolii Poluda, Mykhailo Khymyn and Oleksandr Iliukha)

14:00 – 15:00 Lunch break

Session III - Aquatic Warbler on migratory stopover sites and wintering grounds

15:00 – 15:30 - Current results of research on Aquatic Warbler's migratory trails (proposed speaker - Martin Flade)

15:30 – 16:00 - Aquatic Warbler wintering grounds in West Africa - (Cosima Tegetmeyer)

16:00 – 16:30 - Conservation of Aquatic Warbler's stopover sites in France (Christine Blaize)

16:30 – 17:00 - LIFE projects for Aquatic Warbler conservation in Spain (Eugenio de las Heras and David Miguélez)
